

Dashboard

Read this first. It summarizes your planned week: calories, estimated food cost, pantry gaps, grocery items, and meal coverage.

Dashboard is protected. Edit source data in yellow cells on Settings, Recipes, Pantry, Weekly Planner, and Grocery List.

Metric	Value	Target/Context	Value				
Weekly calories	24160	Target kcal/week	14000				
Estimated food cost	67.275	Budget USD/week	165				
Grocery items	11	Pantry gaps	3				
Planned meals	28	Days planned	7				
Day	Calories	Cost		Category	Items		
Monday	3340	7.5		Produce	3		
Tuesday	3600	12.85		Dairy & Eggs	0		
Wednesday	3340	7.5		Bakery	2		
Thursday	3600	12.85		Pantry	5		
Friday	3340	7.5		Frozen	0		
Saturday	3600	12.85					
Sunday	3340	7.5					

Start Here

Follow these five steps for first success. Yellow cells elsewhere are the only normal edit areas.

Do not delete tabs or columns. Make a backup copy before customization.

Step	Action	Done?	Why it matters	Expected result	Support note
1	Review Dashboard		See the finished sample week	Calories, cost, groceries, pantry gaps visible	No edits here
2	Edit Settings		Set targets and categories	Dashboard target values update	Yellow cells only
3	Edit Pantry and Recipes		Match your household	Inputs feed planning and grocery list	Rows 6-105 supported
4	Choose meals		Create the week	Daily totals update	Use dropdowns
5	Use Grocery List		Shop from final list	Buy qty and estimated cost visible	Unit prices are editable

Settings

Edit yellow cells only. These values drive dashboard targets, grocery categories, and row labels. Add categories only inside the yellow category block below.

Do not insert or delete columns. Add new categories inside the provided yellow rows so formulas and dropdowns stay stable.

Settings

Edit yellow cells only. These values drive dashboard targets, grocery categories, and row labels. Add categories only inside the yellow category block below.

Do not insert or delete columns. Add new categories inside the provided yellow rows so formulas and dropdowns stay stable.

[illegible]

Recipes

Add or edit recipes in the yellow rows. Formulas read rows 6-105. Keep one ingredient per row so grocery quantities can be reviewed clearly.

Do not insert/delete columns. Add recipes only in the provided yellow rows 6-105; formulas are designed for that range.

Recipe ID	Meal type	Recipe name	Default servings	Ingredient	Qty per serving	Unit	Category	Calories/serving	Unit price
R001	Breakfast	Greek yogurt berry bowl	2	Greek yogurt	1	cup	Dairy & Eggs	280	2.4
R001	Breakfast	Greek yogurt berry bowl	2	Berries	0.5	cup	Produce	280	1.35
R002	Lunch	Tomato soup and toast	2	Tomato soup	1	serving	Pantry	420	2.1
R002	Lunch	Tomato soup and toast	2	Whole grain bread	2	slice	Bakery	420	0.8
R003	Dinner	Salmon rice bowl	2	Salmon fillet	1	portion	Meat & Seafood	680	5.8
R003	Dinner	Salmon rice bowl	2	Rice	0.75	cup	Pantry	680	0.45
R003	Dinner	Salmon rice bowl	2	Broccoli	1	cup	Produce	680	1.1
R004	Snack	Apple and peanut butter	1	Apple	1	each	Produce	220	0.7
R004	Snack	Apple and peanut butter	1	Peanut butter	2	tbsp	Pantry	220	0.55
R005	Dinner	Bean taco bowls	2	Black beans	1	cup	Pantry	540	0.9
R005	Dinner	Bean taco bowls	2	Tortillas	2	each	Bakery	540	0.75
R005	Dinner	Bean taco bowls	2	Salsa	0.25	cup	Pantry	540	0.45

Pantry

Edit yellow rows to record what you already have. Grocery List compares needed quantity against pantry on hand. Add pantry items only inside rows 6-105.

Do not insert/delete columns. Add rows inside the provided yellow range only; formulas cover rows 6-105.

Weekly Planner

Choose meals from dropdowns in yellow cells, set servings, and add notes. Dashboard and Grocery List use this planned week.

Do not insert/delete columns or rows on this tab. Use the seven day rows provided; duplicate the workbook for a new planning week.

Day	Breakfast	Lunch	Dinner	Snack	Servings	Notes	Day calories	Day cost
Monday	Apple and peanut butter	Tomato soup and toast	Bean taco bowls	Apple and peanut butter	2 sample week		3340	7.5
Tuesday	Greek yogurt berry bowl	Tomato soup and toast	Salmon rice bowl	Apple and peanut butter	2 sample week		3600	12.85
Wednesday	Apple and peanut butter	Tomato soup and toast	Bean taco bowls	Apple and peanut butter	2 sample week		3340	7.5
Thursday	Greek yogurt berry bowl	Tomato soup and toast	Salmon rice bowl	Apple and peanut butter	2 sample week		3600	12.85
Friday	Apple and peanut butter	Tomato soup and toast	Bean taco bowls	Apple and peanut butter	2 sample week		3340	7.5
Saturday	Greek yogurt berry bowl	Tomato soup and toast	Salmon rice bowl	Apple and peanut butter	2 sample week		3600	12.85
Sunday	Apple and peanut butter	Tomato soup and toast	Bean taco bowls	Apple and peanut butter	2 sample week		3340	7.5

Grocery List

Review and shop from this final list. Yellow quantity, pantry, unit price, checked, and notes cells are editable. Estimated cost uses the visible Unit price column.

Do not insert/delete columns. Add custom items inside yellow rows 6-105; formulas are prefilled for those rows.

Help

Use this tab when something looks wrong. It explains setup, protected formulas, supported edits, and recovery.

Support does not include custom formulas, spreadsheet redesign, personal nutrition advice, or data-entry work.

Topic	Guidance	Supported	Not supported	Recovery	Notes
Editable cells	Yellow cells are safe to edit. Blue cells are formulas or outputs.	Settings, Recipes, Pantry, Planner, Grocery notes/prices	Formula columns and structural changes	Use clean backup copy	Rows 6-105 are prefilled
Rows and columns	Add data inside existing yellow rows only. Do not insert/delete columns.	Using provided blank yellow rows	Adding columns or deleting formula rows	Restore from backup	Warnings appear on every tab
Compatibility	Google Sheets primary. Excel export must be QA checked before claim.	Normal viewing/editing in supported file	External scripts/add-ons	Use primary file if export differs	No external-data formulas
Support scope	Access, setup, documented use.	Basic questions	Custom formulas, nutrition advice, redesign	Read FAQ and reset from backup	Clear scope
