Follow these five steps for first success. Cyan cells elsewhere are the only normal edit areas.

Do not delete tabs or columns. Make a backup copy before customization.

Step	Action	Done?	Why it matters	Expected result	Support note
1	Review Dashboard		See the finished sample week	Calories, cost, groceries, pantry gaps visible	No edits here
2	Edit Settings		Set targets and categories	Dashboard target values update	Yellow cells only
3	Edit Pantry and Recipes		Match your household	Inputs feed planning and grocery list	Rows 6-105 supported
4	Choose meals		Create the week	Daily totals update	Use dropdowns
5	Use Grocery List		Shop from final list	Buy qty and estimated cost visible	Unit prices are editable
