

Inventory Tracker Studio

Start with Setup, then use Inventory to decide what to reorder, when, and how much.

What to do first

1. Set your review date, lead time, safety stock days, pack size, fees, and target margin: Setup input cells
2. Edit the yellow cells on Inventory for your stock, suppliers, and reorder points. Inventory opening stock, reorder point, and unit cost
3. Enter purchases and sales in the log tabs; stock and profit will update automatically: Purchase log rows
4. Use Inventory to see reorder action, reorder-by date, projected stockout, days of stock: Sales log rows
5. Use Price Calculator to test sale prices before you list items. Price Calculator inputs

Editable areas

Leave alone

Dashboard formulas and charts
Inventory status formulas
Sales profit formulas
Price List snapshot formulas

Recovery

Keep a clean copy before heavy edits. If you damage formulas, start again from a fresh duplicate.

What this is not

- Not a subscription app
- Not bank-connected
- Not tax or accounting advice
- Not a live inventory service

Seeded capacity

100 inventory rows, 300 purchase rows, 500 sales rows, 100 price calculator rows, and 100 price list rows.

Dashboard

The replenishment decision surface: what to reorder, when, and how much.

Reorder action mix

Status	Count
Order now	6
Order this week	1
Plan reorder	1
No action	92

Top notes

- Use Setup first, then Inventory.
- Inventory outputs reorder action, reorder-by date, projected stockout date, days cover, suggested order qty, velocity, lead time, and price.
- Seeded capacity: 100 inventory rows, 300 purchase rows, 500 sales rows, 100 calculator rows, 100 price-list rows.
- Purchases raise stock; Sales lower stock.
- Price Calculator helps you test margins before listing.
- Price List stores the approved price snapshot.

Setup

Choose the defaults that drive replenishment, stock, and pricing formulas.

Currency symbol	\$
Review date	2026-03-15
Sales lookback days	30
Sales tax	0.1
Marketplace fee	0.13
Target margin	0.45
Default reorder point	10
Lead time days	14
Safety stock days	7
Default pack size	6
Support note	Use the workbook for stock

Categories

Accessories, Drinkware, Stationery, Home, Wall Art, Apparel

Editable cells

Yellow input cells in Setup, Inventory, Purchases, Sales, and Price Calculator.

Workbook capacity

The delivered workbook ships with 100 inventory rows, 300 purchase rows, 500 sales rows, 100 calculator rows, and 100 price-list rows.

Unsupported

Live bank sync, tax filing, and custom bookkeeping.

Help

Compatibility, limits, and support scope. Keep this sheet visible if you share the file.

Compatible with

- Excel-compatible spreadsheet editors
- Google Sheets standard-formula import

You can change

- Yellow input cells in Setup
- Yellow input cells on Inventory, Purchases, Sales, and Price Calculator

Leave alone

- Dashboard formulas and charts
- Inventory status formulas
- Sales profit formulas
- Price List snapshot formulas

Support scope

- File access, setup guidance, and workbook questions
- Not bookkeeping, tax advice, or live account connections

Limits

- This workbook does not connect to banks or live inventory services.
- Imported protection settings can vary by editor or account.
